BCT members

Please find attached for your information the preliminary weekly reports describing ST012 activities for the week ending September 30, 2016.

Section IV includes the following recommendation: Starting with the week ending 7 October 2016, groundwater elevation monitoring will be performed monthly at all perimeter monitoring locations, except ST012-W11 and ST012-W37, which will be monitored weekly based on continued LNAPL recovery. Monthly perimeter well monitoring will continue until the startup of the planned active containment extraction system at which time the monitoring frequency will be as described in the ST012 Field Variance Memorandum 5, Extraction and Treatment System Construction."

If you have any questions, call Cathy or myself.
